

CONCRETE BASE – SMALL

OHM/002/001

- **Plug & play: concrete base including 4 plugs**
- **Fast installation**

This concrete base can be easily installed in soft ground. The base is made of concrete and already has 4 plugs that indicate where the mounting pole should be placed. The plugs are 7 cm long and are suitable for M10 or M12 bolts; we recommend M12 bolts. If desired, the base can be further reinforced with quick-setting concrete. The necessary bolts are not included as standard but can be purchased separately (OHM/002/011).

Specifications

Lenght	25 cm
Width	25 cm
Height	18 cm
Weight	24 kg
Material	Concrete
Colour	Grey
